Cricket API Pricing & Features – Live Scores, Ball-by-Ball Commentary & More | Goalserve

GOALSERVE

In the fast-paced digital sports world, real-time and accurate data is everything. Whether you're building a live score app, managing a fantasy sports platform, or operating a sportsbook, having access to reliable cricket data is crucial. That's where Goalserve's Cricket API comes in — delivering live scores, ball-by-ball commentary, player stats, and much more.

Let's explore the features, pricing, use cases, and integration benefits of this powerful cricket data feed API.

What is the Goalserve Cricket API?

The Goalserve Cricket API is a robust, developer-friendly solution that provides live cricket data feeds covering:

- Fixtures & Match Schedules
- Live Scores and Detailed Scorecards
- Ball-by-Ball Commentary
- Player Profiles & Team Lineups
- Series Standings & Results
- Pregame and In-play Betting Odds

Data is available in both XML and JSON formats, making it easy to integrate into websites, apps, dashboards, and analytical tools.

Goalserve Cricket API Pricing Plans

1. Monthly Plan – $125

Perfect for short-term projects or evaluations. Includes:

- Live Scores
- Scorecards
- Ball-by-Ball Commentary
- Player Lineups
- Standings
- Series Schedules

2. 6-Month Plan – $550

Ideal for seasonal campaigns or mid-term product rollouts, offering better cost-efficiency.

3. 12-Month Plan – $1000

Best value for long-term users. Get full access to all cricket data feeds at a reduced monthly rate.

4. Full Sports Package – Starting at $800/month

Includes access to all sports APIs (e.g., football, tennis, esports). Annual subscriptions come with 2 free months (limited-time offer until July 31, 2025).

Who Should Use Goalserve's Cricket API?

1. Sports Media Broadcasters

Show live scores, real-time commentary, and instant player stats through dynamic widgets and in-app features. Refresh rate: every 5 seconds.

2. Fantasy Sports Platforms

Create immersive and data-driven user experiences using:

- Starting XI data
- Detailed batsman/bowler statistics
- Ball-by-ball commentary
- Live scorecards and series standings

3. Bookmakers & Betting Platforms

Stay ahead of the competition by accessing accurate live scores and odds from top bookmakers like:

- Bet365
- Betfair
- William Hill
- Marathon Bet

Use this data to adjust markets in real-time and enhance betting accuracy.

4. Cricket Clubs & Analysts

Use the API for performance analysis, player scouting, and strategic planning. Access historical and live data for deeper insights.

Cricket Feed Coverage

Goalserve's cricket API offers global coverage of major and minor tournaments, including:

- India: IPL, Ranji Trophy, Tamil Nadu Premier League

- Australia: Big Bash League

- International: Test, ODI, and T20 series

- ICC Events: World Cup, Champions Trophy

- UK: County Championship

- Bangladesh: Premier League

- Women's & U19 Series

This makes it suitable for apps and platforms serving local and international audiences alike.
